1. General Information

Proposal Title:

Project number:

Module Code:

Reviewer Group Number:

2. Summary of the Proposal (*Briefly summarize the key components in 1-2 paragraphs*)

How is the proposal title?

What is the main focus of the proposal?

What problem or gap does it address?

What are the expected outcomes?

Which methodology is being used?

3. Detailed Evaluation

A. Background & Justification

✓ **Strengths:**

Is the problem clearly defined?

Is the context well-explained with relevant evidence?

Does it justify the need for the study/project?

✗ **Weaknesses/Improvements Needed:**

Are there gaps in the background explanation?

Is the significance of the study sufficiently argued?

B. Objectives, Aims & Research Questions

✓ **Strengths:**

Are the aims and objectives clearly stated and SMART (Specific, Measurable, Achievable, Relevant, Time-bound)?

Do the research questions align with the objectives?

✗ Weaknesses/Improvements Needed:

Are the objectives too broad or vague?

Are the research questions answerable within the scope?

C. Literature Review

✓ Strengths:

Does it cover key theories and prior research?

Is the literature critically analyzed (not just summarized)?

Does it identify gaps that the proposal will address?

✗ Weaknesses/Improvements Needed:

Are there missing key sources?

Is the review too descriptive without critical engagement?

D. Research Methodology

✓ Strengths:

Is the research design (qualitative/quantitative/mixed) appropriate?

Are data collection methods (surveys, interviews, experiments) well-explained?

Is the sampling strategy justified?

Are ethical considerations addressed?

✗ Weaknesses/Improvements Needed:

Are methods feasible within constraints (time, budget, resources)?

Is there a risk of bias in methodology?

Are data analysis techniques clearly described?
